### Dwayne Roach

Dwayne Roach, age 91, of Mount Gilead, passed away early Tuesday morning, July 25, 2023, at Marion General Hospital.

On May 29, 1932, Dwayne was born in Mount Vernon, Ohio, the youngest of 11 children of the late George K. "Kirk" and Clara B. (Wilson) Roach. He graduated from Mount Gilead High School in the Class of 1950.

A U.S. Army Veteran, Dwayne honorably served his country during the Korean War. While stationed in Japan, he was an engine and drivetrain inspector.

Shortly after returning home from the Army, Dwayne was introduced to a young lady, Nancy L. Cooper. They began dating and were married on September 25, 1955, at Trinity United Methodist Church in Mount Gilead. They shared nearly 68 years together as husband and wife, raising six daughters along the way.

A man of faith, Dwayne was a long-time member of the Chesterville United Methodist Church. More recently, he had been attending Bryn Zion Baptist Church.

For 44 1/2 years Dwayne was employed by HPM in Mount Gilead. He worked his way up to being a Special Projects Engineer and retired in 1995. Following retirement from HPM, he and his son-in-law began rebuilding Model A engines and started D & D Engine Service, which was run out of the garage at his home. In addition to Model A's, they also worked on tractors, airplanes, fire trucks and pretty much anything else with an engine. He never had to advertise. Word of mouth and doing a good job got him all the business he could handle.

A big part of Dwayne's life revolved around cars, especially Model A's. A few of his prized possessions were his 1928 and 1929 Model A's. He belonged to the Penn Ohio Model A Car Club and the Shellman Model A Car Club. He was very involved with these groups and traveled all over with them. Dwayne and Nancy traveled extensively together. They visited all 50 states and numerous countries.

Dwayne could be a rather ornery and mischievous man. He had a fun-loving personality and wonderful sense of humor. He greatly enjoyed pulling pranks on others.

Left to cherish Dwayne's memory are his wife, Nancy, of Mount Gilead; six daughters: Lu Ellen (Ron) Ness of Galion, OH, Linda (Richard) Hartwell of Lebanon, TN, Kristy (Dean) Bruce of Ekalaka, MT, Mary Ann (David) Werman of St. Charles, IL, Lorie Duncan of Mount Vernon, OH, Jane (Paul) Thompson of Sunbury; 17 grandchildren; 22 great grandchildren; 2 great-great grandchildren; and numerous nieces and nephews.

In addition to his parents, he was preceded in death by a grandchild; five brothers and five sisters.

Dwayne's family will greet friends from 2 - 5 p.m. on Sunday, July 30, 2023, at the Snyder Funeral Homes, Mount Gilead Chapel, 67 N. Main St., Mount Gilead. Services to honor and celebrate his life will take place there at 11:00 a.m. on Monday, July 31, 2023, with his son-in-law, Pastor Dean Bruce, and his granddaughter, Rev. Katie Humwell officiating. Burial with military honors conducted by the active-duty U.S. Army, VFW Post 8054 and AMVETS Post 87 will follow in Maple Grove Cemetery.

In lieu of flowers, memorial contributions may be made to Make-A-Wish [www.wish.org](http://www.wish.org), a local hospice of your choice, or Bryn Zion Baptist Church.

Snyder Funeral Homes of Mount Gilead are honored to have been chosen to serve Dwayne's family. Special memories or condolences may be shared by visiting [www.SnyderFuneralHomes.com](http://www.SnyderFuneralHomes.com).

### William Frederick "Bill" LaRoche Sr.

William Frederick "Bill" LaRoche, Sr., age 91, of Cardington, passed away at his home on Monday afternoon, July 31, 2023.

On September 12, 1931, Bill was born in Bellaire, Ohio, a son of the late Walter Raymond and Mary Ellen (Robson) LaRoche. The family moved to Morrow County in 1939, purchasing a farm on St. Rt. 61. He graduated from Mount Gilead High School in the Class of 1949.

Bill helped on the farm milking cows, making hay, etc. and in the mid 1950's they transitioned to beef cattle. He worked for North Electric in Mount Gilead and Galion, then spent 23 years at HPM in Mount Gilead.

As a young man, Bill and some friends went to a dance at the skating rink in Marion where he met E. Jean Mahler, who he married on August 11, 1955. They spent nearly 68 years together and raised five children.

Bill enjoyed hunting, sports, farming, guns and pulling his 1976 Dodge truck which he called "The Red Baron" and was later changed to "Ol' Red." He had a love or you might say "an addiction" for dogs. He hunted squirrel, rabbits, and most of all loved coon hunting. He had beagles to hunt rabbits and some different types of coon dogs, but loved his Blueticks. At one point in the late 60's and early 70's he had over 40 dogs including pups. He was usually very "brand specific." Dodge trucks, Chrysler products for cars, Bluetick coon dogs and Black Angus beef cattle - he didn't want any odd colors in the herd! Bill could tell you about his hunting adventures in Morrow, Marion, Knox and Crawford Counties, as well as Kentucky with some of his hunting buddies. He could tell you who owned the land, something about the hunts there, and usually something about the families that lived there.

Bill enjoyed the Ohio State Buckeyes, Bellaire Big Red and Mount Gilead Indians. He played football in high school, fastpitch softball for many years and picked up volleyball later in life, playing until he was 74 years old.

Left to cherish Bill's memory are his wife, E. Jean LaRoche, of Cardington; five children: Susan (Dave) Sherman, William "Bill" (Robin) LaRoche, Jr., Raymond "Lud" LaRoche, Sr., Patricia "Patty" (Wes) Filger, Nancy (Rich) Nance; 10 grandchildren; and 17 great grandchildren.

In addition to his parents, he was preceded in death by two brothers and a sister.

Bill's family will greet friends from 10:00 a.m. - 12:00 p.m. on Saturday, August 12, 2023, at the Snyder Funeral Homes, Mount Gilead Chapel, 67 N. Main St., Mount Gilead. Services to honor and celebrate his life will begin there at 12:00 p.m. with The Rev. Dr. Roger N. Morris officiating. Burial will follow in Rivercliff Cemetery.

Memorial contributions in Bill's name may be made to Ohio's Hospice of Morrow County or The Red Cross.

Bill's family would like to thank Ohio's Hospice of Morrow County for their help and care, Angels Home Care, Snyder Funeral Homes, and all of those who added to the memories Bill had over the years hunting, farming, pulling and sports.

Snyder Funeral Homes of Mount Gilead are honored to have been chosen to serve Bill's family. Special memories or condolences may be shared by visiting [www.SnyderFuneralHomes.com](http://www.SnyderFuneralHomes.com).

## Brain Fitness Facts

### Restoring Plasticity Could Be The Secret To Reversing Brain Damage

(NAPS)—For the world's leading neuroscientists, unlocking the brain's capacity to stimulate neural plasticity has become something of a Holy Grail.

That's because enhancing plasticity is perhaps the most important step towards repairing central nervous system (CNS) damage. In fact, it can have a profound impact across multiple neurological functions, including improving motor, sensory and cognitive abilities such as memory.

People marvel at how children are able to learn things so quickly and easily. This ability is mediated by their brains' nimble neural plasticity. Neuroscientists once believed that neuroplasticity manifested predominately during childhood. However, research in the mid-20th century demonstrated that many aspects of the brain can be altered, even in adulthood. Still, the developing brain has a significantly higher degree of plasticity than the adult brain.

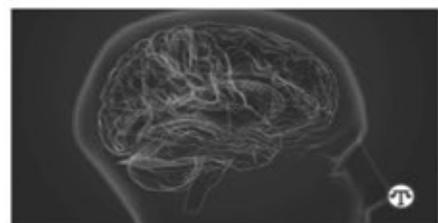

The human brain consists of enormous networks of neurons. They act as messengers that use electrical impulses and chemical signals to transmit information between different areas of the brain, and between the brain and the nervous system. Even a very simple task, such as standing or sitting, typically involves millions of interconnected neurons. Damage to these interconnected systems can be catastrophic.

Enhancing plasticity could be a potential treatment option for any condition where there is extensive damage to CNS tissue. Enhancing plasticity results in 'axonal sprouting' - a process where surviving neurons produce fine collateral sprouts from the intact remaining axons. In other words, healthy surviving neurons become fortified and form new connections in areas of the brain or spinal cord where most neurons are damaged or have died.

"Regeneration of damaged neurons, along with sprouting, together lead to plasticity," says Dr. Jerry Silver, a professor in the Department of Neurosciences at Case Western Reserve University's School of Medicine and co-inventor and advisor at NervGen Pharma. "Medical science already knows how to promote axonal regeneration, which involves getting neurons to grow across an injury site. But what's also needed to ensure significant recovery is sprouting." Dr. Silver discovered the novel pep-

Your brain may be better able to heal itself than was once thought, suggests Dr. Jerry Silver, professor in the Department of Neurosciences at Case Western Reserve University's School of Medicine.

ptide—NVG-291—which has been shown in animal studies to promote plasticity.

NervGen is developing NVG-291, the novel drug candidate that could revolutionize treatment for conditions associated with central nervous system damage, including Alzheimer's disease. It promises to be a world's first—a drug candidate that appears to be able to unlock the central nervous system's ability to repair itself. Medical science will learn if NVG-291 is a prospective wonder drug by 2023 when Phase 2 clinical trials are expected to be well underway.

Existing drugs can only limit or contain the extent of the damage that is the root cause of the world's hardest to treat neurodegenerative diseases. For instance, existing drug therapies that target Alzheimer's disease - the most pervasive of them all - have only succeeded in marginally decelerating its progression. This offers little comfort to the afflicted or to their loved ones.

"NVG-291 presents a new paradigm for treating Alzheimer's disease," said Dr. George Perry, Editor-in-Chief of the Journal of Alzheimer's Disease and member of NervGen's Alzheimer's Clinical Advisory Board. "Nobody else in medical research is taking this same approach. It is essentially enabling the brain to repair itself."

Sharon Bingman

Sharon Bingman, age 52 of Cardington, Ohio, passed away Thursday August 10, 2023, at Woodside Village Care Center after a brief, but aggressive battle with cancer. She was born on September 21, 1970, in Reid, Austria to the late Nick and Pat Brunner. Sharon settled in the United States and later became a United States Citizen.

Sharon loved her job as a Quality Lead for Sky Climber in Delaware and was especially fond of her coworkers. Much thanks to each of them for all of their love and support!

Sharon was gifted in the art of satire, ever drawing a smile with her wit! She loved to have a good time, a good meal, a good laugh, and a good cuddle with her giant, affectionate cat (appropriately named: Cuddles). Sharon loved cooking shows and wasn't so bad in the kitchen herself! In life, she was stubborn, determined, a feeler and a fighter, which was great unless she was fighting you!

On July 4, 2008, Sharon married Daniel Bingman in Morrow County, he preceded her in death on February 27, 2021. Sharon honored his memory by continuing to live on and work the farm he loved, even in the loneliness of his absence.

Sharon is celebrated across the world by her brother Jimmy, sister-in-laws, nieces, nephews, cousins, aunt, other family, and many friends who have been impacted by her life.

A graveside service will be held on Tuesday August 15, 2023 at 11:00 AM in the Glendale Union Cemetery, 105 Glendale Street, Cardington, Ohio 43315.

Gompf Funeral Service of Cardington is honored to have been chosen to assist the Bingman family with Sharon's final wishes and condolences may be expressed at [www.gompffh.com](http://www.gompffh.com).

## HOT WEATHER, DEADLY FOR DOGS

Hot weather, inside or out, in the house or in the car - can be deadly for dogs. All dog, whether Mexican Chihuahuas or Eskimo Malamutes, are heat intolerant. Every year dogs will die from the heat - in Brownsville, Texas and in Bangor, Maine. Well, maybe not in Bangor. I'm certain your dog's veterinarian can relate horror stories of heat induced death of dogs they see every year. And this is a terrible way to die.

All dogs developed from Northern European or Northern Asian Wolves. Yes, even Chihuahuas. Dogs can't tolerate excessive heat and humidity, especially when confined in a car, on a chain or in a hot room. When I was in veterinary practice i was called to see a young Husky that had been confined under a shade tree. The owners had tried to do everything right: shade, water and food. However in their absence, the sun and shade had moved and the water dish knocked over. The dog was dead.

You farm animal and livestock owners, this applies to their situation too - Shade, water, air.

Heat stroke is difficult to treat, often expensive and usually unsuccessful. So, during these hot summer months confine your dog or dogs (as well as all animals) in shady areas where the air can move and there is plenty of water to drink. Do not leave dogs OR CHILDREN confined in a car. That will kill them! And don't forget your dog's heartworm preventive.
