Eye Care America

Untreated Vision Loss Can Speed Cognitive Decline

(NAPS)—There's a reason you shouldn't skip your routine eye exam—and many people don't even know about it. A growing body of research shows that vision loss can affect how well your brain works. The most recent study found that people who scored poorly on vision tests were more likely to suffer from deficits in memory, language and the ability to identify and locate objects in space. To protect your brain, get an eye exam to make sure correctable vision problems are detected and treated. The American Academy of Ophthalmology recommends all adults receive a comprehensive eye exam by age 40, and every year or two after age 65.

Why Check Your Eyes

Here are three more reasons to get your eyes examined:

1. The leading causes of blindness—including glaucoma and age-related macular degeneration—can begin without any noticeable symptoms. The best way to protect your vision is to see an ophthalmologist, a physician who specializes in medical and surgical eye care.

2. Seeing an ophthalmologist can improve your overall health. Blood vessels and nerves in your eyes are reflective of the rest of your body. Ophthalmologists are sometimes the first to diagnose systemic diseases, such as diabetes, multiple sclerosis or vitamin deficiencies. For example, when David Hibler, Sr. went to get his eyes checked, his ophthalmologist detected signs of a blood clot just by looking into his eyes. Seeing

Getting a thorough eye exam can solve some surprising health matters for many people.

an ophthalmologist helped save Hibler's life, as it led him to get appropriate medical attention to avoid a potential stroke.

3. Some adults shouldn't wait until they are 40 to have a complete eye exam. See an ophthalmologist now if you have an eye disease or risk factors such as:

- diabetes
- high blood pressure
- family history of eye disease.

EyeCare America Can Help

If the cost of an eye exam is a concern, the American Academy of Ophthalmology's EyeCare America program may be able to help. This national public service program provides eye care through volunteer ophthalmologists for eligible seniors 65 and older and those at increased risk for eye disease.

RETIREMENT FACTS & FIGURES

Building A Stronger Retirement

(NAPS)—With each generation's expected retirement time growing longer and longer, you may need to plan for 20 to 30 years of life after you stop working. And when it comes to ways to save for the future, many Americans think first of the 401(k), the most popular and well-known retirement savings option.

Saving for Your Health

Lesser known—and understood—is another way to save for your future: the Health Savings Account (HSA). With rising healthcare costs that can exceed \$10,000 annually during the retirement years, HSAs are gaining more recognition as a smart way to complement 401(k)s and other retirement savings options by helping you plan and save for healthcare costs encountered now and in the future.

The Foundation

Traditional 401(k) plans are popular retirement vehicles for several reasons:

- **Tax advantages:** 401(k) contributions are taken out of your paycheck before federal taxes are withheld, which lowers your taxable income. Contributions are also tax-deferred until you withdraw them.
- **More control:** You can contribute as much as you want to a 401(k) within your plan and IRS limits, and you can change your contribution at any time.
- **Compound interest:** The earlier you start investing in a 401(k), the more time your money has to grow.
- **It moves with you:** The money in your 401(k) belongs to you—even if you change jobs, you can keep your money invested and growing.
- **Ease of use:** 401(k)s are easy to contribute to, with many employers offering automatic payroll deductions.

A healthy, happy retirement can be easier to achieve if you plan ahead.

Add More Stability and Strength with an HSA

If you save in your HSA as well as a 401(k), you can take advantage of three unique benefits:

1. **Triple-tax advantage:** No federal taxes on contributions, withdrawals for qualified medical expenses, or investment earnings
2. **Build long-term healthcare and retirement savings:** Especially with HSA Bank's self-directed investment options
3. **No "use it or lose it":** Investment balances carry over from year to year and grow tax-free (just like the HSA cash account)

Save for Expenses

Tax-free HSA fund withdrawals are limited to IRS-qualified medical expenses, but there's a lengthy list of future healthcare costs your HSA can pay for, so your 401(k) funds don't have to. These include everything from acupuncture to a wheelchair and many things in between.

I'm A Lifetime Ohioan. My Parents And Grandparents Too. My Great Grandparents Lived Here. The Reach Of My Memories Span Generations In Ohio, USA, We've Lived Average Simple Lives. Men And Women In Our Family Have Been Equal Partners, Both Treasured, Respected And Supportive Of One Another. We Teach If Something Goes Awry, We Discuss It, Then We "Roll Up Our Sleeves" To Do The Work Needed And We Progress. We Help Our Neighbors And They Help Us. Our Memories Don't Include A Life Under An Autocratic Athoritarian Government. The News And History Books Lend Us Glimpses Of Governments Elsewhere, Grim Glimpses Of Unimaginable Scenarios. Our Mouths Were Not Born With A "Silver Spoon" Nor Are We "Silver Tounge". Our Hands Contribute, They Don't Pursue Ways To Cheat. We Don't Condone Prejudices, Misogyny, Liars, Or Those Who Steal What Is Not Theirs. We Don't Seek To Pit Brother Against Brother. In Our Family "The Greatest Of These Is Love", (I Corinthians 13:13) And We Bow Only To One-God. (Not To A Selfish Man-Philipians 2:1-4). For Our Children, Grandchildren, And Great Grandchildren, And For Yours, We Contemplate All This Before We Act. Grandpa Warned, "If It Looks Like A Skunk And Smells Like A Skunk, It's A Skunk! Walk Away Son, Or You'll Smell Like That Too". Urging Simple Considerations To Preserve Our Democracy, Our Laws, As I/We Vote. 10-17

EARLY DETECTION SAVES LIVES

A mammogram can mean early detection and a life saved. That's why a screening mammogram is so important. The earlier breast cancer is diagnosed, the more treatable it is. Morrow County Hospital offers 3D mammography as a part of its breast health services. And, no prescription or doctor's referral is needed for a screening mammogram in women 40 and older.

To schedule your mammogram, call **(419) 949-3090** or visit **[MorrowCountyHospital.com](https://www.morrowcountyhospital.com)** for more information.
